

Job Announcement

Climate Risk and TCFD Expert Recruitment

Established in 2015 in Washington, DC, as a mission-driven Benefit LLC, CFA is a certified B-Corporation and a women-owned consulting and advisory firm that works at the nexus of private investment and climate change. Our mission is to accelerate sustainable, climate-aligned investment to the benefit of society, the economy, and the global environment.

Are you looking to help transform organizations and the financial sector? We are looking to hire finance practitioners at multiple staffing levels to support our [Climate Risk and TCFD](#) work, including:

- Junior Associate (1-3 yrs experience)
- Associate (3-5 yrs experience)
- Senior Associate / Project Manager (5+ yrs experience)

Duties and responsibilities may include:

- Support and/or lead strategic client engagements to help them integrate operational approaches for climate risk management, TCFD operational alignment, and strategic planning for climate change (including new opportunities to increase climate-related investments).
- Support and/or lead the development of thought leadership, services, products, marketing materials and offerings related to climate risk and TCFD.
- Deliver excellent client engagement services, project management, and in-house leadership and mentoring.
- Support business development team with development of climate risk and opportunity, TCFD alignment, and other consulting project proposals.

Timing and Location

Full time position. Flexible location and hours depending on the candidate considered.

Qualifications:

- Master's degree preferred in business, finance, economics, or a related environmental discipline.
- The ability to think both strategically and pragmatically to help our clients operationalize practical approaches for implementing climate strategies (both risk management, and new opportunities).
- Experience structuring transactions, and/or working in the credit or risk function of a financial institution preferred.
- Direct experience with TCFD alignment or implementation across an organization.
- Previous consulting experience and project management a plus.
- Quantitative analysis, financial analysis and modeling skills preferred.
- Excellent English writing skills.

Personal Characteristics:

- An entrepreneurial spirit and a willingness to help with a variety of tasks related to growing a start-up business.
- Attention to detail, and a specific focus on quality deliverables.
- Ability to lead teams, mentor others.
- Not afraid to ask for guidance and clarification.
- Team player, creative thinker, willing to take initiative.

How to Apply:

Email your resume and a short cover letter to jobs@climate-fa.com. No phone calls, please.
